CUTTING DOWN HERDS.

Owing to the Scarcity of Feed, Large Shipments of Sheep Are Made.

Mt. Pleasant, Oct. 29.—Courteen carloads of sheep are being loaded at the local yards today by various growers for shipment to the eastern markets. This is the result of the poor feed which exists on the winter feeding quarters this fall. Growers are afraid to send the usual number of sheep out for winter, and all are culling their herds down closely and seiling. It is feared that the market will be in poor condition when the load arrives. Inspector McNeily has been on necessary inspection.
